

453

PROBE for CONTINUOUS LEVEL TRANSMITTER for HIGH TEMPERATURE

TECHICAL CHARACTERISTICS

- **Sensor working:** capacitive after connection with 452 transmitter
- **Probe body:** stainless steel AISI 303
- **Thread:** ½" GAS
- **Electrode:** stainless steel covering
- **Covering:** ø 12mm PTFE
- **Temperature:** 239 °C on the electrode
- **Pressure:** 32 bar
- **Weight:** 800 gr (for L=50cm)
- **Plug:** 25mm not-sensitive end, at the bottom
- **Product controlled:** water, liquids
- **Special lengths available on request**
- The length of probe is approximately
- The covering in PTFE is not to cut.

MECHANICAL DIMENSIONS

CODE	TEMPERATURE	PRESSURE	THREAD	ELECTRODE	NOTES
453-505-00	239 °C	32 bar	½ " inox AISI 303	stainless steel; L from 35cm up to 50cm	
453-510-00	239 °C	32 bar	½ " inox AISI 303	stainless steel; L from 51cm up to 100cm	
453-515-00	239 °C	32 bar	½ " inox AISI 303	stainless steel; L from 101cm up to 150cm	
453-520-00	239 °C	32 bar	½ " inox AISI 303	stainless steel; L from 151cm up to 200cm
